

## gp160 (DU156.12)

|               |                                                              |
|---------------|--------------------------------------------------------------|
| Cat No.:      | 01-01-10113                                                  |
| Product Name: | gp160 (DU156.12)                                             |
| Description:  | gp160 (DU156.12)                                             |
| Type:         | Vector                                                       |
| Property:     | Vector                                                       |
| Origin:       | South Africa                                                 |
| Vector:       | pcDNA3.1                                                     |
| Genbank No.:  | DQ411852                                                     |
| Applications: | Construction, Expression                                     |
| Formulation:  | The purified plasmid soluble in TE buffer.                   |
| Storage:      | Store at -20°C, Avoid freeze / thaw cycle.                   |
| Limitation:   | For research use only, not for use in diagnostic procedures. |
| Note:         | Clade C                                                      |
