

## **gp160 (3365.v2.c20)**

|               |                                                             |
|---------------|-------------------------------------------------------------|
| Cat No.:      | 01-01-10003                                                 |
| Product Name: | gp160 (3365.v2.c20)                                         |
| Description:  | gp160 (3365.v2.c20)                                         |
| Type:         | Vector                                                      |
| Property:     | Vector                                                      |
| Origin:       | Tanzania                                                    |
| Vector:       | pcDNA3.1                                                    |
| Genbank No.:  | ADI62141.1                                                  |
| Applications: | Construction,Expression                                     |
| Formulation:  | The purified plasmid soluble in TE buffer.                  |
| Storage:      | Store at -20°C,Avoid freeze / thaw cycle.                   |
| Limitation:   | For research use only,not for use in diagnostic procedures. |
| Note:         | Clade A                                                     |
