

## Anti-Gag(HTLV-1)

|               |                                                              |
|---------------|--------------------------------------------------------------|
| Cat No.:      | 01-01-3524                                                   |
| Product Name: | Anti-Gag(HTLV-1)                                             |
| Description:  | Anti-Gag(HTLV-1)                                             |
| Type:         | Antibody                                                     |
| Property:     | Rabbit Serum                                                 |
| Source:       | Rabbit Polyclonal Antibody                                   |
| Applications: | WB                                                           |
| Immunogen:    | Gag protein of HTLV-1 virus (Genebank No. AAB20767)          |
| Specificity:  | Reacts with Gag protein of HTLV-1 virus.                     |
| Purity:       | >95%                                                         |
| Storage:      | Store at -20°C ,Avoid freeze / thaw cycle.                   |
| Limitation:   | For research use only ,not for use in diagnostic procedures. |
