

## Anti-gp120(Bal)(HIV-1/Clade B)

|               |                                                                                                |
|---------------|------------------------------------------------------------------------------------------------|
| Cat No.:      | 01-01-3504                                                                                     |
| Product Name: | Anti-gp120(Bal)(HIV-1/Clade B)                                                                 |
| Description:  | Anti-gp120(Bal)(HIV-1/Clade B)                                                                 |
| Type:         | Antibody                                                                                       |
| Property:     | Rabbit IgG                                                                                     |
| Source:       | Rabbit Polyclonal Antibody                                                                     |
| Applications: | ELISA ,IP ,Neut.                                                                               |
| Immunogen:    | gp120(Bal)(HIV-1/Clade B) protein(a.a.32-518) (Genebank accession # M68893).                   |
| Specificity:  | Reacts with HIV-1 Clade B gp120/160 proteins.<br>Cross-reactivity to other subtype not tested. |
| Purity:       | >95%                                                                                           |
| Storage:      | Store at -20°C ,Avoid freeze / thaw cycle.                                                     |
| Limitation:   | For research use only ,not for use in diagnostic procedures.                                   |
