| Product Name: | Monkey CD322                                                                                                                                                                                                                                                                                   |
| Description:  | CD322, a immunoglobulin superfamily gene member, is localized in the tight junctions between high endothelial cells. It acts as an adhesive ligand for interacting with a variety of immune cell types and may play a role in the processes of lymphocyte homing to secondary lymphoid organs. |
| Type:         | Protein                                                                                                                                                                                                                                                                                        |
| Property:     | Recombinant Protein                                                                                                                                                                                                                                                                            |
| Source:       | HEK293                                                                                                                                                                                                                                                                                         |
| Genbank No.:  | XP_014988568 ( aa.29-238)                                                                                                                                                                                                                                                                      |
| Applications: | ELISA, WB, Immunogen                                                                                                                                                                                                                                                                           |
| Formulation:  | Each vial contains 50ug purified protein(1mg/ml) in PBS(pH7.4).                                                                                                                                                                                                                                |
| Purity:       | >95%                                                                                                                                                                                                                                                                                           |
| Storage:      | Store at -80°C, Avoid freeze / thaw cycle.                                                                                                                                                                                                                                                     |
| Limitation:   | For research use only, not for use in diagnostic procedures.                                                                                                                                                                                                                                   |
