| Product Name: | Human CD329-hIgG1                                                                                                                                                                                                                                                   |
| Description:  | Putative adhesion molecule that mediates sialic-acid dependent binding to cells. Preferentially binds to alpha-2,3- or alpha-2,6-linked sialic acid. The sialic acid recognition site may be masked by cis interactions with sialic acids on the same cell surface. |
| Type:         | Protein                                                                                                                                                                                                                                                             |
| Property:     | Recombinant Protein                                                                                                                                                                                                                                                 |

| Genbank No.:  | Q9Y336 ( aa.18-348)                                                                                                                                                                                                                                                 |
| Applications: | ELISA, WB, Immunogen                                                                                                                                                                                                                                                |
| Formulation:  | Each vial contains 50ug purified protein(1mg/ml) in PBS(pH7.4).                                                                                                                                                                                                     |
| Purity:       | >95%                                                                                                                                                                                                                                                                |
| Storage:      | Store at -80°C, Avoid freeze / thaw cycle.                                                                                                                                                                                                                          |
| Limitation:   | For research use only, not for use in diagnostic procedures.                                                                                                                                                                                                        |
