

## Anti-HBsAg (genotype C)

|               |                                                                                  |
|---------------|----------------------------------------------------------------------------------|
| Cat No.:      | 01-15-0102                                                                       |
| Product Name: | Anti-HBsAg (genotype C)                                                          |
| Description:  | Anti-HBsAg (genotype C)                                                          |
| Type:         | IgG1                                                                             |
| Property:     | Mouse monoclonal Antibody                                                        |
| Source:       | Mouse                                                                            |
| Applications: | ELISA, Neut., IP, IF                                                             |
| Formulation:  | Each vial contains 100 ug purified IgG in 100 ul PBS(1mg/ml) with 40% glycerol.  |
| Immunogen:    | DNA vaccine expressing HBsAg (genotype C) protein (Genebank accession AY040627). |
| Specificity:  | Reacts with HBsAg (genotype C). Cross-reactivity to other subtypes not tested.   |
| Purity:       | >95%                                                                             |
| Storage:      | Store at -20°C, Avoid freeze / thaw cycle.                                       |
| Limitation:   | For research use only, not for use in diagnostic procedures.                     |
